Bridge Day 1 STUDENT QUIZ

Exact Output, Stored Values, and First Complete Program

Learning sequence: Predict - Trace - Explain - Test - Interpret

Monday, July 6, 2026 • 20 points • target 18 minutes

Name		**UIN**		**Section**	

Assessment boundary and evidence source

Contract: 07a04826c975
Cumulative foundations: print, assignment, exact output
Scaffold level: supported complete program with fixed values
Evidence source: the matching v5 workbook readiness/evidence pages and VIP activities 18.1, 18.2.
Show intermediate state for trace credit. Program credit requires one coherent solution, a stated assumption when the prompt leaves one implicit, and at least one test whose expected result can distinguish correct from incorrect logic.

Item 1. Trace stored state and exact output. - 4 points

```
label = "VIP"
count = 2
print(label)
count = count + 3
print("count:", count)
label = "Bridge"
print(label, count)
```

Question: Show the stored values after each assignment, then write every output line exactly.

Item 2. Separate a copied value from a later overwrite. - 4 points

```
stored = "ready"
print("first", stored)
displayed = stored
stored = "review"
print("second", displayed, stored)
```

Question: Trace stored and displayed. Explain why displayed does not change when stored is overwritten.

Item 3. Repair one exact-format defect. - 4 points

```
course = "ENGR 102"
meeting = "Bridge"
print("Course", course)
print("Meeting:", meeting)
```

Question: The first line must be Course: ENGR 102. Give the actual output, the minimal repair, and the corrected exact output.

Complete program - 8 points

- Store Maya in name, 4 in kits, and 6 in items_per_kit.
- Compute total_items from the two numeric variables.
- Print exactly Student: Maya, Kits: 4, and Total items: 24 on three separate lines.
- Use the variables in the print statements; do not type 24 as the result.

Program workspace

Test input, expected result, and why this test matters

Quiz evidence is sampled from the taught construct boundary; workbook and notebook evidence remain the primary learning surfaces.
